## **Correspondence**

Letter from Normandeau; report will arrive later in the week.  
Chehames will call Mark Hutchins and invite him to the December meeting to give an overview report; Steve Truchon will also be invited. Truchon will be reviewing the report to make sure contract terms have been fulfilled.

## **New Business**

Monitoring of the Bentley/Parkhurst property will be put on the agenda for the winter months.

Re: new commission members- Selectmen have been contacted by a couple of residents, who will be invited to attend the next TCC meeting.

Re: Test well data from the Wolfeboro Wastewater Infiltration site- David Ford has promised to send test well data to the TCC as soon as Wolfeboro receives it, as well as posting it to the website. Steve Truchon has advised that this info may be considered proprietary until it is submitted to the state.

The Melvin River study was not approved by the Selectmen. The TCC agreed to hold off on a warrant article. Phelps discussed the budget with the Selectmen, who have passed it on to the Budget Committee. The LRPC has been removed from the TCC budget and added to that of the Planning Board.

Discussion on small wind energy systems, their location and architecture.

8:45 pm meeting adjourned.

Vicki Kinnaman  
Conservation Commission, Secretary
