WARNING FOR ISLANDS HURRICANE IRENE

Tuftonboro Emergency Management is advising all island property owner, renters and guests to evacuate the island by 6 pm on Saturday (8/27) in advance of Hurricane Irene. The National Weather Service is predicting sustained wind strength in excess of 60-70 mph and heavy rain for the Tuftonboro and Lakes Region area. These conditions will prevent any rescue or emergency responses to island properties until the storm has passed.

All people living on the island should secure their properties, boats and evacuate the island for their own safety.

This is not a mandatory evacuation.
