**Selectmen's Work Session Minutes  
9:00 am – Pier 19 Dock**

**Friday, July 23, 2021**

Present: Chairman Bill Marcussen, Selectman Chip Albee, Selectman Guy Pike, Administrative Secretary Cathy Pounder, Chief Shagoury, Chief Thompson, NH Fish and Game

The Selectmen met at Pier 19 dock to witness the landing and takeoff of a seaplane piloted by Thomas Wood of Epic Seaplane Adventures. Several residents attended the demo. Mr. Wood stated a person would be always at the plane. Mr. Wood would like to have the pilings cut as low as possible preferable about 1 foot above the dock. The group spoke of safety concerns and pilot training requirements with both Mr. Wood and Mark Wooddrift, Chairman of the Seaplanes Pilots Association. They would like the area to be seaplane friendly. Chairman Marcussen reminded the public they are only here to address the request of cutting the pilings, that is the only request presented to them at this time.

Respectfully submitted,  
Cathy Pounder  
Administrative Secretary
