

Master Plan Steering Committee Meeting

4 P.M. Wednesday

November 23, 2021

MINUTES

Members Present: Carol Bush, Sue Wingate, and Gary Qua

Staff Consultants Present: Carol Ogilvie and Ivy Vann

I. Review of Draft Plan

The Committee reviewed the latest draft Plan page by page, noting edits and corrections. The edits were largely clerical, along with suggestions to improve some of the visuals included in the Plan.

The Committee then discussed mapping options for the Plan. Gary stated that the Planning Board would need a written estimate of the mapping costs provided verbally to Carol O. by CAI. She will reach out and get that information. At this point, the only map that Ivy and Carol are certain will need to be updated is the Existing Land Use; other maps, such as natural resources, may be still current and usable.

A member of the public (not a Tuftonboro resident) was in attendance and had questions about the Plan and the process. Gary explained the purpose and goals of this update and Ivy spoke to the process and the results of the surveys.

II. Next Meeting

To Be Determined

There being no further business, Gary adjourned the meeting at 5:00 P.M.

Respectfully submitted,

Carol Ogilvie
